**SkillsUSA State Competition Medalists**

**Linn State Technical College**

**March 24 – 27, 2010**

## SkillsUSA Fact Sheet

SkillsUSA is a partnership of students, teachers and industry working together to ensure America has a skilled work force. It is a national organization serving teachers and high school and college students who are preparing for careers in technical, skilled, and service occupations, including health occupations.

### SkillsUSA Championships

The SkillsUSA Championships is the showcase for the best career and technical students in the nation. Contests begin locally and continue through the state and national levels. Students placing first in a skill or leadership at the state level are eligible to compete at the national level.

The Championships is a multi-million dollar event that will take place at Bartle Hall in Kansas City, MO June 20-26, 2010. In 2009, there were more than 5,400 contestants in 91 separate events. Nearly 1,500 judges and contest organizers from labor and management will make the national event possible.

The philosophy of the Championships is to reward students for excellence, to involve industry in directly evaluating student performance and to keep training students the skills employers need.

**Hillyard Technical Center** congratulates all of our students who completed in the district and state competitions. Below are our medalists for the Missouri state competition held in March. Nineteen first place medalists will compete in 7 categories at the national competition in June.
